

Legislator Direct

CONTROL YOUR LEGISLATIVE INTELLIGENCE

Accurate, timely, and accessible legislative intelligence is crucial to the success of your public affairs efforts. The better you can identify and leverage valuable information—such as where key elected officials stand and where your strengths lie—the better your chances of success, no matter what the issue.

DDC Advocacy's Legislator Direct application helps you achieve your goals by making it easy to leverage your legislative intelligence. Legislator Direct is designed to centralize, manage, and track legislative information and lobbying activity at the federal and state levels, ensuring that you always have the full picture of your public affairs efforts.

WITH LEGISLATOR DIRECT, YOU CAN:

- **View a snapshot of critical information on each legislator.**
Detailed legislator profiles display your organization's complete relationship with every legislator, from your human and economic assets in the district to personal connections to past PAC contributions.
- **Track and plan your organization's interactions with legislators.**
Leverage complete, realtime information on your past interactions with legislators to strategize your future efforts and prepare for upcoming meetings.
- **Manage your lobbying efforts over time.**
Legislator Direct enables users to enter and update information on contacts with legislators and generate detailed reports on your lobbying activity.
- **Get legislative intelligence anywhere via mobile access.**
You don't have to be in the office to get the information you need: Mobile access to Legislator Direct keeps you connected to up-to-date intelligence wherever you are.*

PUT LEGISLATOR DIRECT TO WORK FOR YOU!
